United Nations leading the way...

- This year the theme of the day is “Achieving 17 Goals for the Future We Want”. The day will focus on the 17 sustainable development goals, and how they can help create a world that is more inclusive and equitable for persons with disabilities

Inclusive and Equitable

Over 1 billion (1,000,000,000) people experience a disability

- But they are 2x more likely to experience inadequate health care
- 3x more likely to be denied health care
- 4x more likely to be treated badly in the health care system

Health Care

- ½ of those with disabilities (500,000,000) cannot afford to get health care
- This can push a family into catastrophic debt or crisis

200,000,000 need glasses

Two hundred million people need glasses but do not have access to them.

70,000,000 need a wheelchair

- Seventy million people need a wheelchair and only 10% of those who need one, have one. (7,000,000)
